

How have we addressed the 2024 objectives set by Ofsted?

To develop a well-sequenced, ambitious curriculum across all subjects.	We have introduced a carefully planned curriculum across all subjects, enabling children to build knowledge and skills progressively year on year. Click here to find out more.
To strengthen provision for pupils with special educational needs and disabilities.	We have implemented a clear graduated approach, introduced bespoke support plans, enhanced staff training and worked closely with families to meet pupils' individual needs. Click here to find out more.
To ensure consistently high expectations for behaviour throughout the school.	Our behaviour policy is now well established, with clear expectations, rewards and routines understood by both pupils and staff. Click here to find out more about our behaviour expectations and our behaviour policy .
To invest in staff development so that teaching continues to improve.	A comprehensive programme of professional development has supported continual improvements in teaching and learning.
To further develop the teaching of early reading and phonics.	We began working with the English Hub in 2025 and introduced Read Write Inc. in January 2026, trained all staff and worked closely with trainers from Read, Write Inc and the English Hub. During one review, the quality of teaching was described as ' <i>exceptional</i> '. We are also delighted that 81% of Year 1 pupils met the expected standard in the Phonics Screening Check in 2026, in line with the national average. Please visit our Read, Write Inc page to find out more.
